

1. True or False?

Is it a good idea to draw a Gant Chart? The coming set of scheduling questions applies to the same CPU scheduling policy, the same processes with the same arrival times and CPU bursts lengths. It will definitely pay off to draw a Gant chart for the first question and use the SAME Gant chart for the next ones.

True

2. Based on the table below, the turnaround time for Process P1 is _____.

P1	2	8.5
P2	9	4
P3	4	7.5

5.5

3. Based on the table below, Process P1 enters the ready queue the first time at _____.

P1	2	8.5
P2	9	4
P3	4	7.5

8.5

4. Based on the table below, Process P2 enters the running queue the first time at _____.

P1	2	8.5
P2	9	4
P3	4	7.5

4

5. Based on the table below, the turnaround time for Process P3 is _____.

P1	2	8.5
P2	9	4
P3	4	7.5

8.5

6. Based on the table below, the response time for Process P1 is _____.

P1	2	8.5
P2	9	4
P3	4	7.5

3.5

7. Based on the table below, the turnaround time for Process P2 is _____.

P1	2	8.5
P2	9	4
P3	4	7.5

15

8. Based on the table below, Process P2 enters the ready queue the second time at _____.

P1	2	8.5
P2	9	4
P3	4	7.5

6

9. Based on the table below, Process P1 enters the ready queue the second time at _____.

P1	2	8.5
P2	9	4

P3 4 7.5

-1

10. Based on the table below, Process P2 enters the ready queue the first time at _____.

P1 2 8.5

P2 9 4

P3 4 7.5

4

11. Based on the table below, Process P1 enters the running queue the first time at _____.

P1 2 8.5

P2 9 4

P3 4 7.5

12

12. Based on the table below, the response time for Process P3 is _____.

P1 2 8.5

P2 9 4

P3 4 7.5

2

WRONG

13. Based on the table below, Process P3 enters the ready queue the second time at _____.

P1 2 8.5

P2 9 4

P3 4 7.5

10
